

Released July 20, 2018, by the National Agricultural Statistics Service (NASS), Agricultural Statistics Board, United States Department of Agriculture (USDA).

Pelt Production Down 4 Percent

Mink pelt production in the United States in 2017 totaled 3.31 million pelts, down 4 percent from 2016. Wisconsin, the largest mink producing State, produced 1.09 million pelts. Utah, the second largest producing State, produced 734 thousand pelts.

The number of pelts by color class as a percent of the total United States production in 2017 is as follows: Black at 50 percent, Mahogany at 19 percent, White at 7 percent, and Blue Iris and Sapphire at 6 percent. The remaining color classes accounted for 12 percent.

Value of pelts produced during the 2017 crop year was \$120 million, slightly above a year ago. The average price per pelt for the 2017 crop year was \$36.30, up \$1.60 from \$34.70 in 2016.

Female mink bred to produce kits in 2018 totaled 731 thousand, down 5 percent from the previous year.

Percent of total females bred to produce kits in 2018 by color class as is follows: Black at 50 percent, Mahogany at 18 percent, White at 7 percent, and Blue Iris and Sapphire at 6 percent. The remaining classes accounted for 13 percent.

(D) Withheld to avoid disclosing data for individual operations.

¹ Other States include New Hampshire, New Jersey, New York, North Carolina, South Dakota, and some pelts from the above listed States that were not published to avoid disclosing individual operations.

² Published color classes may not add to the State total to avoid disclosing individual operations.

Statistical Methodology

Survey Procedures: Mink production data are collected from early May through late May from all known producers. Individual NASS Regional Field Offices maintain a list of all known mink producers and use known sources of producers to update their lists. All known mink producers are mailed a questionnaire and given adequate time to respond by mail. Those who do not respond by mail are telephoned or enumerated in person. Care is exercised to account for all operations. Pelt market price data is obtained in June. Prices are collected at the point of first sale, before marketing costs are deducted.

Estimation Procedures: All data are analyzed for unusual values. Data from each operation are compared to their own past operating profile and to trends from similar operations. Data for missing operations are estimated based on similar operations or historical data. NASS headquarters prepare these estimates by using a combination of survey indications and historic trends. Individual State and US estimates are reviewed by the Agricultural Statistics Board for reasonableness.

Revision Policy: Revisions to previous estimates are made to improve year-to-year and item-to-item relationships. Estimates for the previous year are subject to revision when current estimates are made.

Reliability: Mink production estimates are based on a census of all known active producers and therefore, have no sampling variability. However, estimates are subject to errors such as omissions, duplication, mistakes in reporting, recording, and processing data. While these errors cannot be measured directly, they are minimized through strict quality control in the data collection process and a careful review of all reported data for consistency and reasonableness.

To assist in evaluating the reliability of the estimates in this report, the “Root Mean Square Error” is shown for selected items in the following table. The “Root Mean Square Error” is a statistical measure based on past performance and is computed using the differences between first and final estimates. The “Root Mean Square Error” for mink pelts produced over the past 10 years is 1.5 percent. This means that chances are 2 out of 3 that the final estimate will not be above or below the current estimate of 3.31 million pelts by more than 1.5 percent. Chances are 9 out of 10 that the difference will not exceed 2.7 percent.

Reliability of Mink Estimates

[Based on data for the past ten years]

Item	Root mean square error	90 percent confidence level	Difference between first and latest estimate				
			Average	Smallest	Largest	Years	
						Below latest	Above latest
(percent)	(percent)	(1,000)	(1,000)	(1,000)	(number)	(number)	
Pelts produced	1.5	2.7	29	0	137	6	2
Females bred	1.5	2.8	7	0	30	5	2

Access to NASS Reports

For your convenience, you may access NASS reports and products the following ways:

- All reports are available electronically, at no cost, on the NASS web site: www.nass.usda.gov
- Both national and state specific reports are available via a free e-mail subscription. To set-up this free subscription, visit www.nass.usda.gov and click on “National” or “State” in upper right corner above “search” box to create an account and select the reports you would like to receive.

For more information on NASS surveys and reports, call the NASS Agricultural Statistics Hotline at (800) 727-9540, 7:30 a.m. to 4:00 p.m. ET, or e-mail: nass@nass.usda.gov.

The U.S. Department of Agriculture (USDA) prohibits discrimination against its customers, employees, and applicants for employment on the basis of race, color, national origin, age, disability, sex, gender identity, religion, reprisal, and where applicable, political beliefs, marital status, familial or parental status, sexual orientation, or all or part of an individual's income is derived from any public assistance program, or protected genetic information in employment or in any program or activity conducted or funded by the Department. (Not all prohibited bases will apply to all programs and/or employment activities.)

If you wish to file a Civil Rights program complaint of discrimination, complete the [USDA Program Discrimination Complaint Form](#) (PDF), found online at www.ascr.usda.gov/filing-program-discrimination-complaint-usda-customer, or at any USDA office, or call (866) 632-9992 to request the form. You may also write a letter containing all of the information requested in the form. Send your completed complaint form or letter to us by mail at U.S. Department of Agriculture, Director, Office of Adjudication, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, by fax (202) 690-7442 or email at program.intake@usda.gov.
